Principal's Message:

Please be sure to complete the CAL-SCHLS survey. The results of this survey help to measure Student and Parent Engagement and Overall School Climate. Thank you for your participation!

As part of SDUSD Local Control Accountability Plan and mandates as described in the California School Dashboard, our District is required to measure Student Engagement, Parent Engagement & Overall School Climate.

The CAL-SCHLS survey system is the most commonly used and reliable school survey, and is used by our School District to collect data for Mira Mesa High School to help in improving school climate.

Please use the link below to complete the parent survey for MMHS. All surveys are anonymous.
